PROMETHEUS FLAME EFFECT

PROMETHEUS FLAME EFFECT

The Prometheus is an extremely versatile system that can provide up to 40 feet of flame on command. It can be mounted using a variety of methods. The burner is water and weather resistant. With a central rack mount controller capable of handling the DMX control of multiple burner heads, or a single head controller, this system provides a reliable and cost-effective option for companies who need a rugged and sleek flame system that exceeds industry standards. The Prometheus is listed by ARL testing lab to the NFPA 160 standard. This unit can be fueled by the any of the FCL, FCH, or FP series fuel systems we offer.

BURNER HEAD

- 8" L x 7" W x 10" H
- 120Vac, 50/60Hz, 3A
- 5 lbs
- Isopar / Isopropyl Alcohol

CONTROL PANEL

- 6L" x 6W" x 6H"
- 3LBS
- 120/240 VAC 50/60 Hz, 3A
- DMX/Show Controller
- Custom controls available

Prometheus Unit

Cryo Jets

The Cryo2 Jet is a state-of-the-art cryogenic effect system capable of producing plumes of Cryo fog up to 20 ft high using liquid CO2. The system is built from top grade industrial components which yield a very rugged device for reliable and repeatable operation. Its small size and adjustability allow it to be mounted in a wide variety of applications. The Cryo2 Jet can be used with high pressure liquid CO2 tanks or refrigerated liquid CO2 dewar tanks.

POWER: 120Vac, 50/60 Hz, 0.25A (Others Available)

WEIGHT: 3 lbs

DIMENSIONS: 8"L x 4"W x 14"H

SUPPLY: 300psi / 1000psi

PLUME HEIGHT: 20'

CONTROL: Switched power

CONSUMPTION: 1 lb/sec

Cryo Jets

Fuel cells can provide a pressurized source of many liquid fuel types to one of our available Salvo and Prometheus flame systems. The FCH 4 can deliver up to 4 gallons of fuel to the desired effects head at a pressure of 1000 PSI. Propellant is pressure regulated nitrogen.

DIMENSIONS: 8"L x 8"W x 25"H

FUEL: Isopar, Isopropyl Alcohol

CAPACITY: 4 gal

PRESSURE: 1000 psi max

HOSE LENGTH: 10' (longer available)

WEIGHT: 37 lbs (empty)

Hand Held Flame Thrower
