REVISED Weapons

SHOPPING LIST

Name	Description	Image		Price (USD)
Oxy-Propane Machine Gun	Military-style 50 caliber machine gun. Mounting options include either permanent mount on the set, or placed in the back of a jeep vehicle. The weapon can be lit with LED lights or enhanced with UV theming. It features intense bursts of flame. Able to rotate 220 degrees. Well coordinated with sound effects and bullet-hits, the end result is a fearsome weapon indeed!			\$16,350

REVISED SHOPPING LIST SPECIAL EFFECTS

Name	Description	Image	Price (USD)
Leaky Barrel Comedic-Style	The Leaky Barrel is a great comedic break in action after an intense sequence... After a flurry of gunfire, a main character realizes he has escaped unharmed but only barely... A bullet has hit a barrel he is standing in front of and as a stream of water shoots from the barrel (between his legs), the character realizes just how "close" the shot was to his own favorite place.		\$4,620
Series of Bullet-Hits Leaky Barrel	A great visual effect... a sequence of bullet-hits (in a row) cause a barrel to start leaking - Spray is significant! 2 Meters long! 5 or 6 hits in the sequence.		\$5,750

REVISED SHOPPING LIST SPECIAL EFFECTS

Name	Description	Image	Price (USD)
Barrel-Launcher	In stunt shows, the law of "equal-and-opposite" re-action makes special effects appear haphazard and random. For instance, after an explosion, a few flying objects really make the impact of the explosion seem real.		\$7,500 (includes 2 barrels)

REVISIED SPECIAL EFFECTS

Name	Description	Notes and Comments	Image		Price (USD)
Pneumatic Water Cannon	This effect is filled with water and explodes sending a spray of water into the air upwards of 7 - 8 meters. The water would come out of a funnel themed like a barrel. Multiple water cannons strategically placed around the set startle, surprise and if desired... can splash the audience.	"Splash zones" can be designated within the audience seating.			\$8,500 including barrel or 55 gallon drum
