

# Water Stunt Show

SUGGESTED ELEMENTS & LAYOUT PROPOSAL

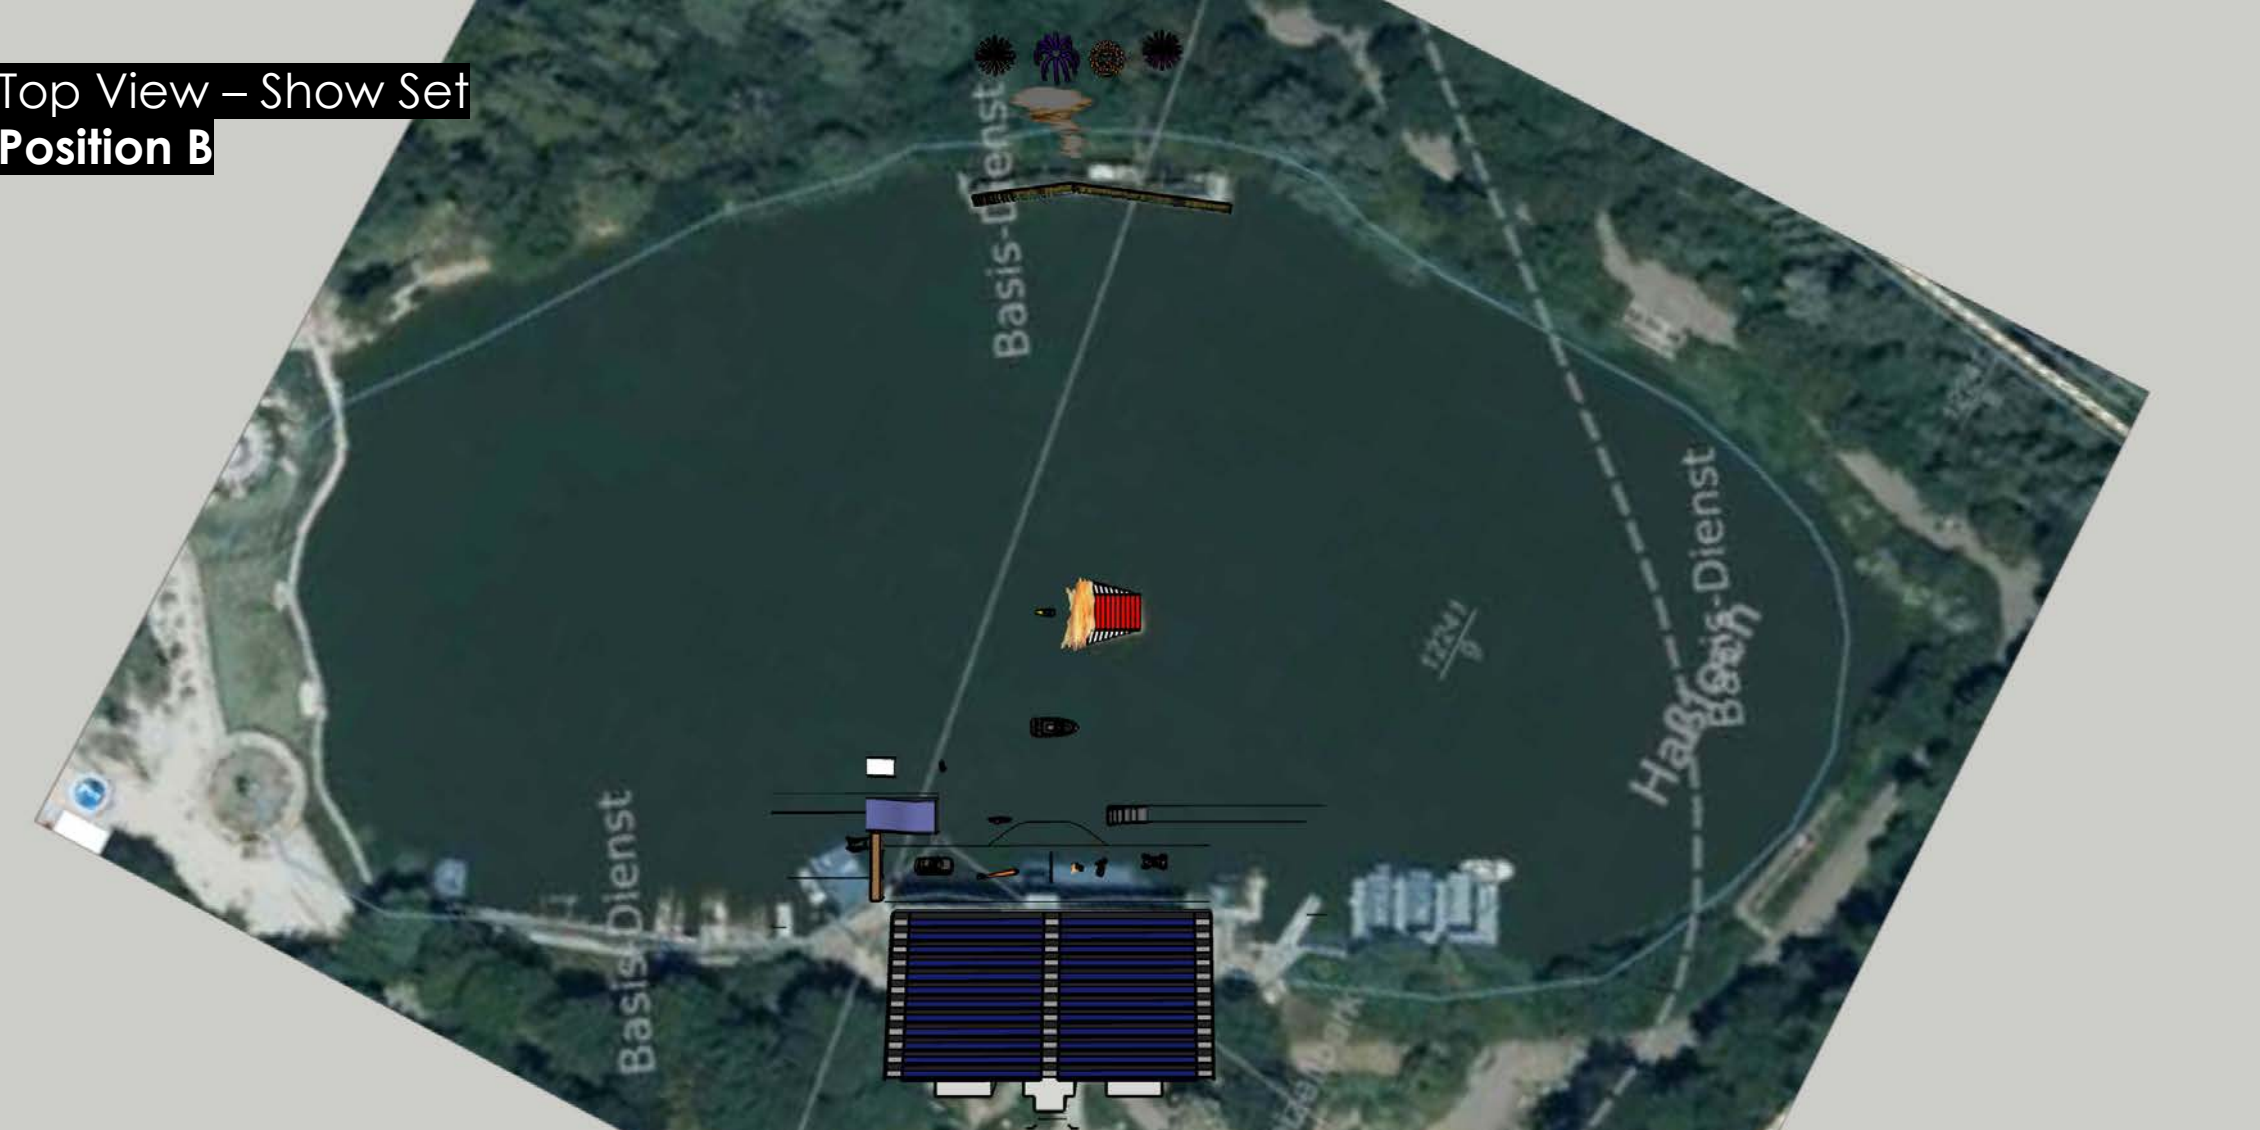

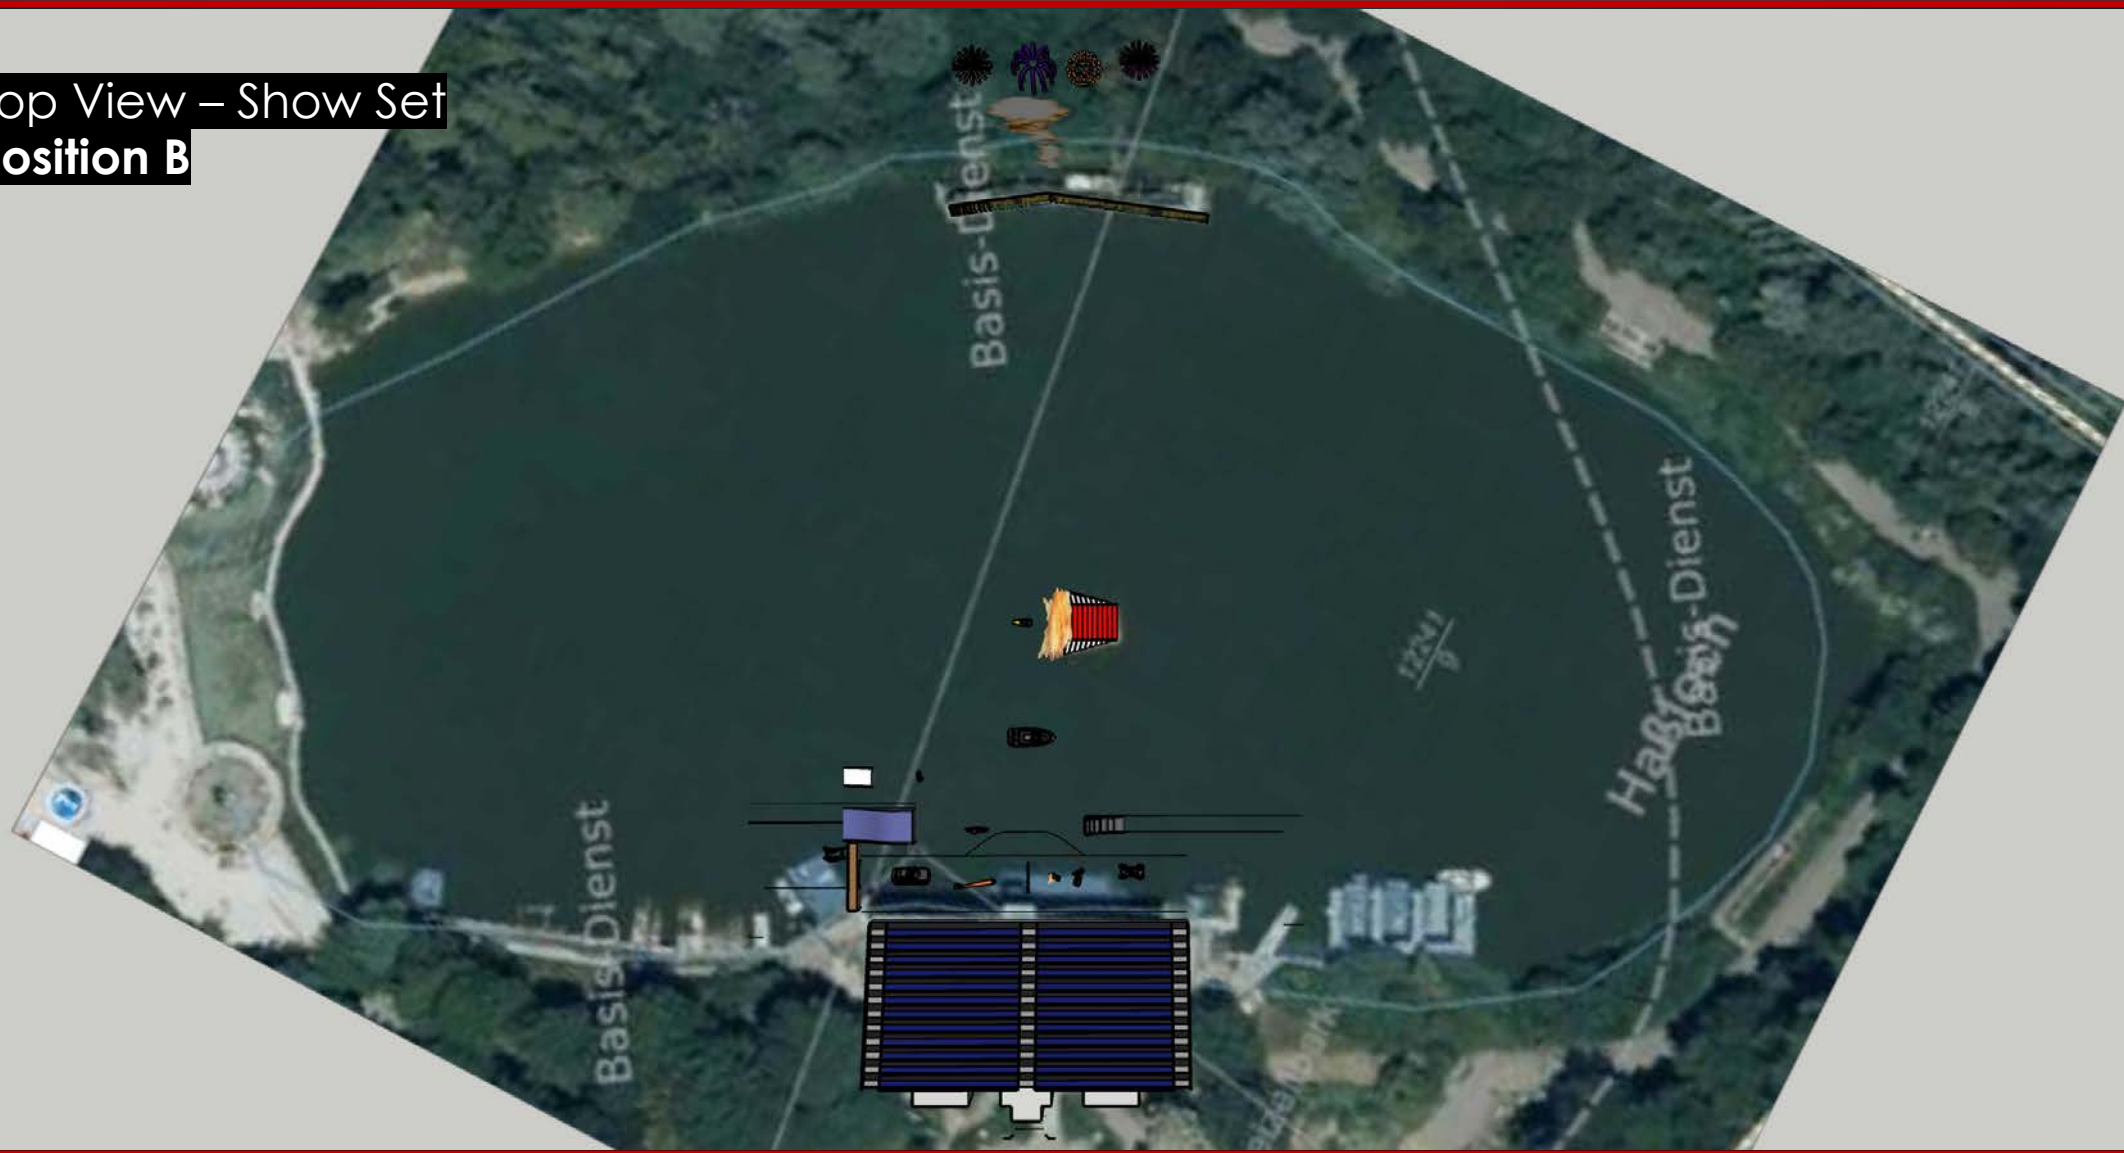

# Preliminary Layout

Top View – Show Set  
**Position A**

11

Top View – Show Set  
Position B

A top-down view of a virtual set for a film shoot. The set is a large, dark blue body of water, possibly a lake or a large pool, surrounded by a green, hilly landscape. In the center of the water, there is a small, white, cylindrical structure with a red top, resembling a lighthouse or a small tower. To the left of this structure, there is a small, white, rectangular boat. To the right, there is a small, white, rectangular structure with a red top, resembling a lighthouse or a small tower. The water is surrounded by a green, hilly landscape with various trees and bushes. In the bottom left corner, there is a small, white, rectangular structure with a red top, resembling a lighthouse or a small tower. The overall scene is a virtual representation of a natural landscape, designed for a film shoot.

# Preliminary Layout

- ▶ Add 70-ft. Motorcycle Jump with extended decking
- ▶ Create Archway for Vehicle Entrances
- ▶ Extend Stage to allow for Vehicle Stunts & Action

# Project Description

## Proposal Specifications

### 1 Show Acts

New water stunt performances will highlight the acts in this show. Motorcycle Jumps, Car Stunts, Flyboards, Freestyle Jet Skis, a Wakeboard Ramp, as well as special effects will enhance and showcase this water stunt show with a specific theme and choreographed to a scripted storyline.

### 2 Shopping Cart Show Elements

This is designed with specific show elements we are suggesting over and above what you currently have in your Water Ski Show. This format allows you to choose all or just a few of these live show enhancement elements in the hopes of assisting you in determining and formalize your capital expense budget for this new Water Stunt Show Production.

### 3 Vehicles & Equipment

The shows performance vehicles will include modified stunt cars, freestyle FMX motorcycles, street freestyle bike, rollover bike, standup Jet skis, competition ski boats, sit-down jet skis, drone surfer and more.

# Show ACTS

# Boat Opener

This show will feature a classic choreographed boat opener act. Additionally, these boats will pull several ski acts and create a V-Wake for Freestyle Jet Skis!

# Fire Act

A large Dragonfly flame effect explodes as our stand up jet skier rides through the fire. A water skier pulls up beside him and tags to also be set ablaze. The jet skier dives under water with a submarine, while our skier flies off the ramp, out of his skis, and into the water to extinguish the flames.

# Stand Up Jet Ski

Freestyle jet ski routines are a favorite in every water ski show. Modern innovations have allowed stand up jet skis to flip, roll and spin in ways never before possible. Our performers are among the best freestyle riders in the world.

# Wakeboard Act

Wakeboarding is the most popular sport on the water. Unlike traditional ski shows, this show will utilize an additional ramp to demonstrate the newest styles in the sport.

# Sky Ski

Big air is the staple of the next act - the sky ski. A unique high performance hydrofoil allows the sky skier to fly through the air performing multiple combinations of inverts across the water.

# Flyboard

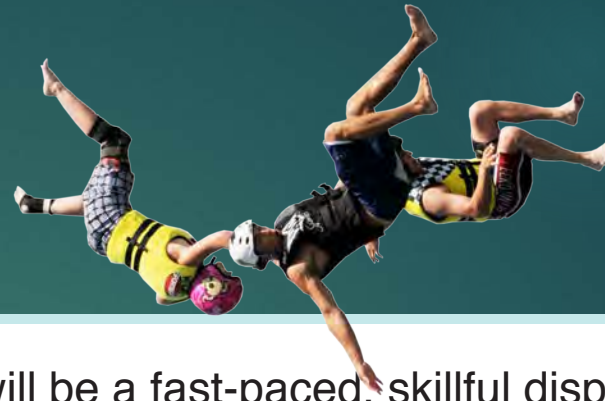

An incredible innovation in modern water sports as you know, our flyboard performers will perform tandem synchronized extreme routines. They will also be part of the freestyle FMX bike jumps, where the FMX bikers while jumping will fly in-between our two fly-boarders.

# Comedy Act

With colorfully whacky costumes, our comedy act will be a fast-paced, skillful display of water ski antics. This act may include a planted performer out of the audience, skis tied to the dock, skiing on a chair, and hilarious crash landings.

# Ski Jump

A trio of Freestyle Jumpers will perform various high speed and skillful jumps from your ski jump ramp. Tricks include triple helicopters, long distance jumps, front flips and gainers.

# Russian Swing

Propelled by a pusher performer, divers will launch from the end of the swing, spinning and twisting on their way to diving into the water. This Russian Swing will be mobile and moved into place just before the act.

# Car Stunts

Stunt Car drivers will perform various precision maneuvers. These stunts are highlighted by driving the cars on only 2 wheels!

# Street Bike Stunts

Street Bikes give performers the ability to do stunts on the stage: SIT DOWN WHEELIE; STAND UP WHEELIE; Rear Peg Wheelie; 10 o clock Wheelie; 12 o Clock Wheelie; NAC NAC; CAN CAN; NOSE GRAB; FENDER; And much more...!

# Fire Bike Slide

A rider on a specialized motorcycle will slide through a row of flames, sending the bike flying and igniting himself on fire!

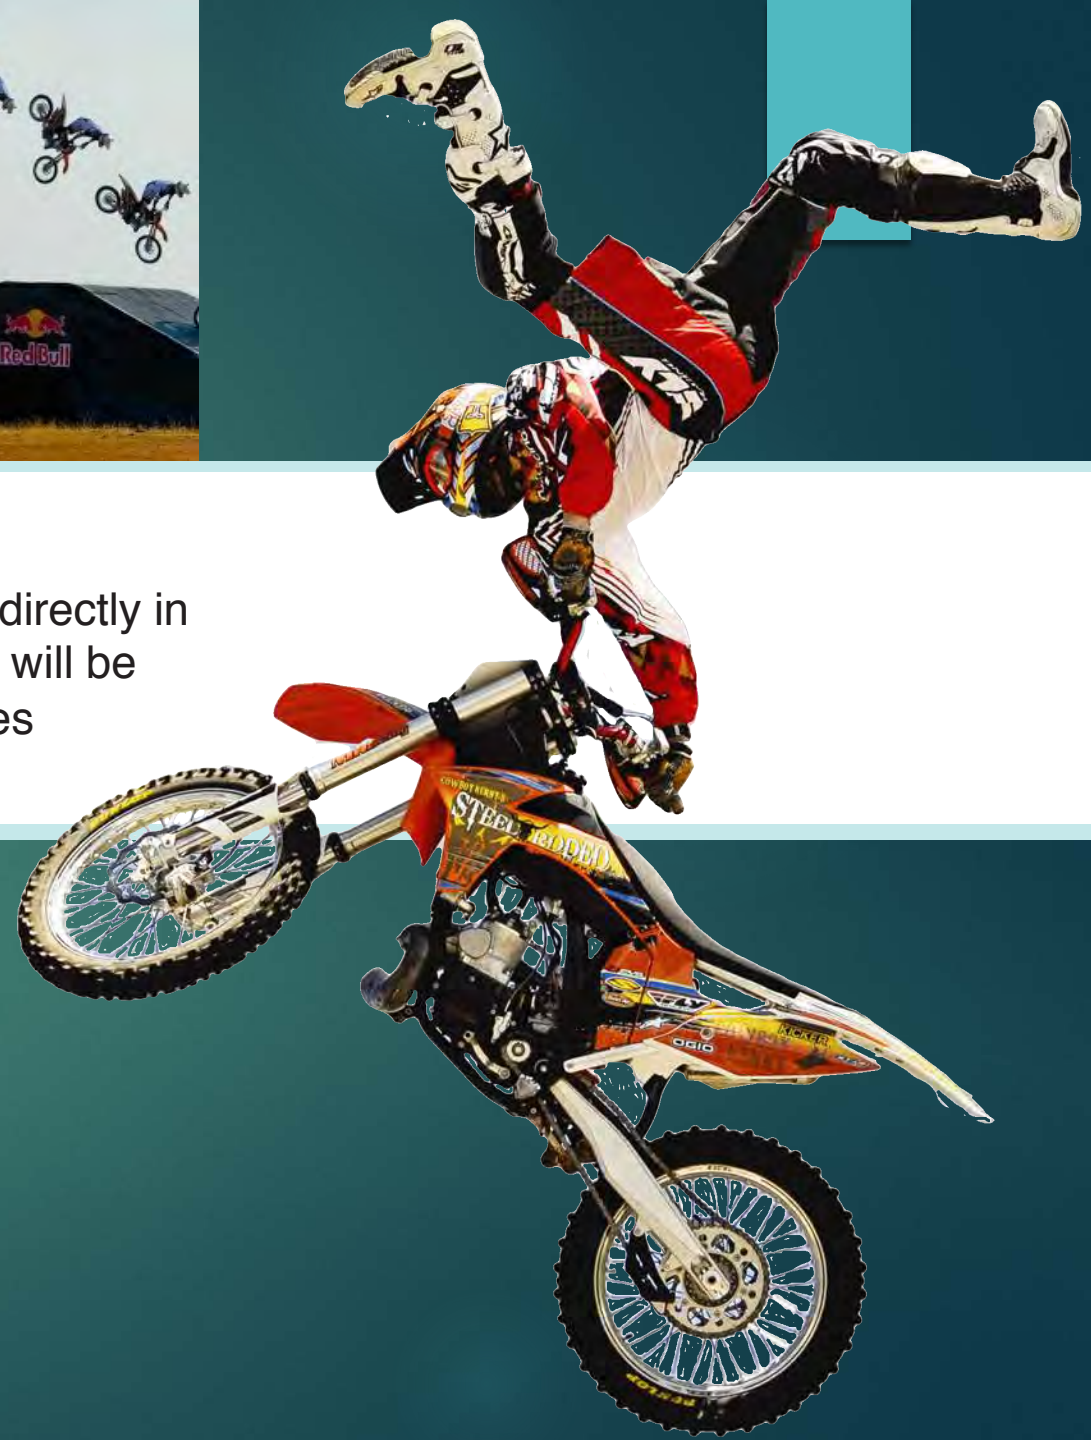

# Freestyle Bike Jumps

Freestyle Motorcycle riders will soar 70-feet through the air directly in front of the audience! This will be a wildly unique stunt as it will be performed *over water* with flyboards and jet ski performances crossing under the jump!

|--------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Six-Shot Bazooka<br>(Pyro Flare Gun) | The Six-Shot Bazooka is a hand-held weapon specially-designed by Mirage Entertainment for effect and safety. Designed for both left and right-handed performers, the Bazooka features six distinctive shots that when timed with sound effects and bullet-hits, makes for a truly believable stunt-show assault. | A black, hand-held weapon with six barrels, lying on a wooden table. The weapon has a trigger and a safety switch. The barrels are arranged in a 2x3 grid. The trigger is on the left side, and the safety switch is on the right side. The weapon is lying on a wooden table with a red chair in the background. |

|-----------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Barrel Launcher | In stunt shows, the law of “equal-and-opposite” reaction makes special effects appear haphazard and random. For instance, after an explosion, a few flying objects really make the impact of the explosion seem real. | A wide-angle shot of a stunt show set. In the center, a large, multi-story building is on fire with bright orange flames. To the left, a white dune buggy is parked on a dirt path. In the foreground, a black dune buggy is parked on a paved area. Two people are standing near the black dune buggy. In the background, a large yellow structure is visible. Two small, dark, rectangular objects are circled in red in the upper left and upper right corners of the image, indicating flying objects. |

|-----------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Leaky Barrel<br>Comedic-<br>Style | The Leaky Barrel is a great comedic break in action after an intense sequence... After a flurry of gunfire, a main character realizes he has escaped unharmed but only barely... A bullet has hit a barrel he is standing in front of and as a stream of water shoots from the barrel (between his legs), the character realizes just how “close” the shot was to his own favorite place. |    |
